Dear Parent, Guardian, and Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. The Clifton Public Schools has adopted an Integrated Pest Management Policy and has implemented an IPM plan to comply with this law. IPM is a holistic, preventative approach to managing pests.

All schools in New Jersey are required to have an IPM Coordinator to oversee all activities related to IPM and pesticide use at the schools.

The IPM Coordinators for the school district are: Al Marchione and Joe Fersch

Business Telephone: (973) 470- 2276

Business Address: 745 Clifton Ave., Clifton, NJ 07013

The district also employs and uses an outside contractor that maintains control logs and does routine inspections as well as treats areas affected by pests. All logs are maintained at each of the schools.

As part of the school pest control program, The Clifton Public Schools may use pesticides to treat unmanageable pests. Those pesticides are managed and used by a certified pest control company. The pesticides used are EPA approved and do not pose an unreasonable risk to human health nor the environment.

If you have any questions as it relates to this policy please contact this office.
